

Storms, Electromagnetism, Space and Weather (Ramot)

code: 12-2011-237

[Colin Price](#), T.A.U Tel Aviv University, Exact Sciences, Geophysics and planetary sciences

Department of Geophysics and Planetary Sciences

Area of Expertise:

Atmospheric Physics, Atmospheric Electricity, Climate Change, global lightning activity and the connections between lightning activity and the Earth's climate

Offered Services:

- Observations and Measurements Services of Low Frequency Electromagnetic Noise:
Prof. Price has at present 4 operating field sites for monitoring low frequency electromagnetic radiation in the atmosphere. These measurements are in the ultra low frequency (ULF: f
