

TREATMENT OF ARDS ASSOCIATED WITH COVID-19 (Hadasit)

code: 8-2020-507

Yoram Weiss, Hadassah Ein Kerem, Anesthesiology and Critical Care, Anesthesiology

This project, is a collaboration of Prof. Yoram Weiss from Hadassah, Prof. Yechezkel Barenholz from HUJI and Prof. Goloubinoff from the University of Lausanne (Switzerland), aiming to treat Acute Respiratory Distress Syndrome (ARDS) by using a specifically adapted formulation.

The project takes advantage of a specific active ingredient whose feasibility has been tested in vitro and in vivo.

Existing animal models and materials are available for the development.
